

NEW PROJECT LEAD[®] WORKSHOP

OCTOBER 23-25, 2009 • LOS ANGELES, CA

What is Project LEAD Workshop?

An introductory 2½-day workshop to teach the language and concepts of breast cancer science and research

Who should attend?

Breast cancer advocates interested in learning more about the biology of breast cancer and the study methods used to conduct well-designed breast cancer research

Participants will learn:

- Basics of breast cancer science
- The biomedical research process
- How to accurately understand scientific information in the news
- Effective breast cancer advocacy methods for local community participation

Become an NBCC member and attend for FREE!
